The Future of Mountains

The Future of Deserts

The Future of Rainforests

The World Environments CD-ROM examines three very different types of environment: Mountains, Deserts and Rainforests.

The resources for each location are broken down into four topic areas that discuss elements of their physical geography and take a look at what it is like to live in each environment and how this might change in the future. Each of the twelve sections includes Teachers' Notes, Key Facts and a multiple choice worksheet, as well as interactive labelling and ordering activities.

National Curriculum: KS2 - KS3

Scottish Curriculum: Levels B - D

World Environments is priced (ex.VAT):

- extended site licence - £99.95
