

Wolfram Mathematica
The world's most powerful global computing environment

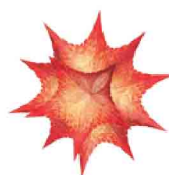

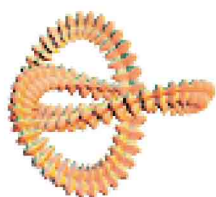

Recognized as the world's most powerful mathematical computing environment, *Mathematica* has grown in breadth and depth to become an unparalleled platform for all forms of educational software.

Mathematica is now available for UK schools

Mathematica 6 is due to revolutionize the maths classroom. *Mathematica's* powerful core symbolic architecture, can now be used to build sophisticated mathematical presentations with interactive interfaces from single lines of input.

With free access to an online collection of thousands of fully interactive *Mathematica* visualizations, featuring real-time dynamic calculations that can be customized for your classroom.

Available for Windows PC, Linux PC and Apple Mac

Mathematica 6 is priced (ex.VAT):

school site licence (schools with fewer than 2000 pupils)	- £995
school site licence (schools with fewer than 1000 pupils)	- £850
classroom licence (25 <i>Mathematica</i> licences)	- £500
single user licence	- £100

(*Mathematica* school licences include unlimited user licences for school and teacher-owned computers.)
